

# **ATEX & SEVESO**

*Professional solutions for your risks!*

# **SZUTEST**

## ABOUT SZUTEST

**SZUTEST**, as one of the leading companies in Turkey with hundreds of employees, tens of stakeholders, and thousands of completed projects, has been aware of its responsibility to protect public health and safety since the first day of its establishment, and in addition to the conformity assessment services of the products, it offers its expertise in the field of process safety to large audiences by working meticulously.

## WHY PROCESS SAFETY?

There are directives published and enforced in EU member states and our country. These regulations are:

- 2014/34/EU ATEX Directive requires the equipment to be used in potentially explosive atmospheres to be evaluated and documented in terms of Exproof properties,
- The Regulation on the Protection of Employees from the Hazards of Explosive Environment requires the preparation of the Explosion Protection Document and the examination of the Exproof properties of the equipment used in these areas,
- The Regulation on Prevention of Major Industrial Accidents and Lessening Their Adverse Impacts requires the preparation of the SEVESO Safety Report and the establishment and management of the Process Safety Management System.

## WHY SZUTEST?

**SZUTEST** is a notified body accredited by **TURKAK** within the scope of the **2014/34/EU ATEX Directive** and authorized by the Ministry of Industry and Technology, the Ministry of Trade, and the EU Commission. In addition to complying with the legal requirements, with the services you will receive from **SZUTEST**:

- You can receive service with its competent and strong staff in all directives regarding process safety.
- Manufacturers and facility owners can access the convenience of receiving the service needs of all these directives from a single organization,
- You can take technical and organizational measures with the customized solutions of our experienced experts.
- You can access effective and result-oriented services with a professional service approach,
- You can ensure your process safety by minimizing your risks with our industry experience achieved over many years.
