SZUTEST

ABOUT SZUTEST

With its services designed according to international accreditation requirements, **SZUTEST** provides "**Type Approval Certification**" services in many countries through **NSAI (e24)** and **Swedish (e5)** approval bodies in the automotive field.

WHY TYPE APPROVAL CERTIFICATE?

With the type approval certificate that your organization will have;

- Compliance of a manufactured product or product group with EU regulations or directives is determined.
- The way for your exports to Europe and other countries will be opened.
- It makes you stronger in a competitive environment.
- The way for your sales in the national market is opened.
- It enables your trade volume to grow

WHY SZUTEST?

As **SZUTEST**, we provide you with fast, high quality and reliable certification services with continuous technical support thanks to our strong communication network and our assigned automotive experts without losing time in intermediary institutions. With our solution-oriented service approach, we ensure that your product, system, or vehicle is produced in accordance with regulations and directives.
