

CONSTRUCTION MATERIALS

*Together we overcome challenges for a safer
future!*

SZUTEST

ABOUT SZUTEST

SZUTEST is one of the notified bodies accredited by **TURKAK**, authorized by **The Ministry of Environment and Urbanization, The Ministry of Trade, and The EU Commission**, with a wide range of services. **SZUTEST** carries out certification activities for CE marking on a wide range of products with the experience of being accredited for many years.

WHY YOU SHOULD CERTIFY CONSTRUCTION MATERIALS?

305/2011/EU Construction Materials Regulation, published in EU member countries and our country, defines the obligation of manufacturers to affix the **CE Label** before placing their products on the market. In addition to complying with legal requirements by certifying your construction materials:

- You can increase your performance by managing risks,
- You can optimize your certification expenses,
- You can contribute to human and environmental safety,
- You can increase your customer satisfaction

WHY SZUTEST?

SZUTEST meets the certification needs of manufacturers with a world-class service approach. It offers an objective and reliable experience to the manufacturers with its wide service scope and effective solution understanding in the construction sector. As **SZUTEST**, we support our customers to emerge stronger from the competitive environment with our strong communication network and expert staff.
