

INDUSTRIAL SERVICES

*We are in every field of the industry
with our accredited services!*

SZUTEST

ABOUT SZUTEST

SZUTEST provides services in all areas of the industry as an independent and impartial organization to meet the quality and performance requirements defined in national and international standards and customer specifications under the assurance of the Inspection Body according to **TS EN ISO/IEC 17020** standard, Personnel Certification according to **TS EN ISO/IEC 17024** standard and Product and Service Certification standards according to **TS EN ISO/IEC 17065** standard.

WHY INDUSTRIAL SERVICES?

In addition to complying with legal requirements, with the services you will receive in the industrial field:

- Your products can gain the right of free movement in the international arena,
- You can ensure customer satisfaction by increasing product quality,
- You can prevent major financial losses that may arise from low product quality in future processes,
- You can use your financial resources more effectively,
- You can optimize your certification expenses,
- You can gain a competitive advantage in the sector

WHY SZUTEST?

The quality of the products is determined by the product and test standards. As **SZUTEST**, we provide our customers with fast, reliable, and comprehensive service by using our auditing expertise in all areas of the industry. We share our years of experience with our customers in all areas of the industry. We confirm that your products comply with the relevant standards with an objective and impartial perspective with our understanding of high customer satisfaction and on-site service.
