

INTERNATIONAL CERTIFICATION

The way to grow a healthy business is through international certification!

SZUTEST

ABOUT SZUTEST

With its international certification services, **SZUTEST** is an organization that has offices and numerous customers in many countries outside of Turkey for many years. **SZUTEST** enables manufacturers to open the doors of different markets in the international arena with its experience in this field.

WHY INTERNATIONAL CERTIFICATION?

Manufacturers, who want to be stronger in the world market and to market their products in the mentioned countries, frequently apply for international certification recently. With these passport-like documents, which gained more importance with the economic agreements between countries;

- You can market your products with free circulation,
- You can promote your products in different countries,
- You can have a wider customer portfolio,
- You can freely pass your products in customs clearance procedures.

WHY SZUTEST?

SZUTEST fulfills all its responsibilities with an objective and honest service approach, from the first stage to the last stage of the certification process. It provides fast and quality service in every field by producing alternative solutions to its customers with its solution partners, partner organizations, and professional relations. Guiding world trade with its industry experience and expert staff, **SZUTEST** helps you reach new markets and adapt to the required international standards.

OUR SERVICES

UKCA Certificate (UK Conformity Assessed)

The UKCA Certificate (UK Certificate of Conformity Assessment) is the new UK certification required for certain products placed on the markets of England, Scotland, and Wales. It covers many products that require pre-Brexit CE certification.

GOST-R

In Russia, GOST is one of the types of certificates required for import and export. Products that do not fall under the EAC legislation are subject to GOST-R certification. Depending on the exporter's request, the validity period of the GOST-R certificate for mass production can be 1 or 3 years.

EAC TECHNICAL REGULATION

The Customs Union Certificate of Conformity (EAC) is an official document confirming the conformity of the quality of the productions with the approved regulations within the Customs Union region. It is a mandatory document required for manufacturers who want to export to Russia, Belarus, Kazakhstan, Kyrgyzstan, or Armenia.
