*We continue to be the locomotive
of the industry!*

SZUTEST

ABOUT SZUTEST

SZUTEST, the first notified body of Turkey in the certification of safety components, is a conformity assessment, personnel certification, and Type A inspection body authorized by **TURKAK**, **Vocational Qualifications Authority (MYK)**, and **TR Ministry of Industry and Technology** according to the 2014/33/EU Lift Directive, Elevator Periodic Control Regulation and Vocational Qualifications Authority Law No. 6645. SZUTEST provides services in Turkey as well as many countries in Europe, Asia, and North Africa.

WHY LIFT?

Our services include the lifts available in buildings, the safety components to be used in the assembly of the lifts that are in the stage of placing on the market, and the personnel who work as maintenance and assembly personnel in all of these processes. You can assure the following with the services you will receive within these scopes;

- You can supply products to the market that will not endanger the health and safety of users of the lift,
- You can quickly and easily export your products to the European market,
- You can increase your brand prestige by increasing your corporate reputation,
- You can take the necessary measures regarding customer health and safety,
- You can highlight your professional competence and experience,
- You can ensure the competence of the personnel you will assign to your company.

WHY SZUTEST?

SZUTEST, which is among the respected, customer-oriented, and competent companies in the industry, provides services on a global scale in the field of CE certification of Lifts, Personnel Certification, and Lift Periodic Control, within the framework of the principles of **honesty, fairness, and reliability**. With our years of self-confidence and experience, our experts, who have worked in the field for many years, provide services to our customers all over Turkey. We continue to add value and give direction to the industry with our wide service scope in lifts.
