

MEDICAL DEVICES

Reliable and pioneer...

SZUTEST

ABOUT SZUTEST

SZUTEST, one of the reliable and leading organizations in medical device certification and testing activities, is a **Team-NB** member notified body that has proven itself to medical device authorities around the world with more than 15 years of experience. **Team-NB** is a notified body association that requires the application of high standards in the field of medical devices for membership.

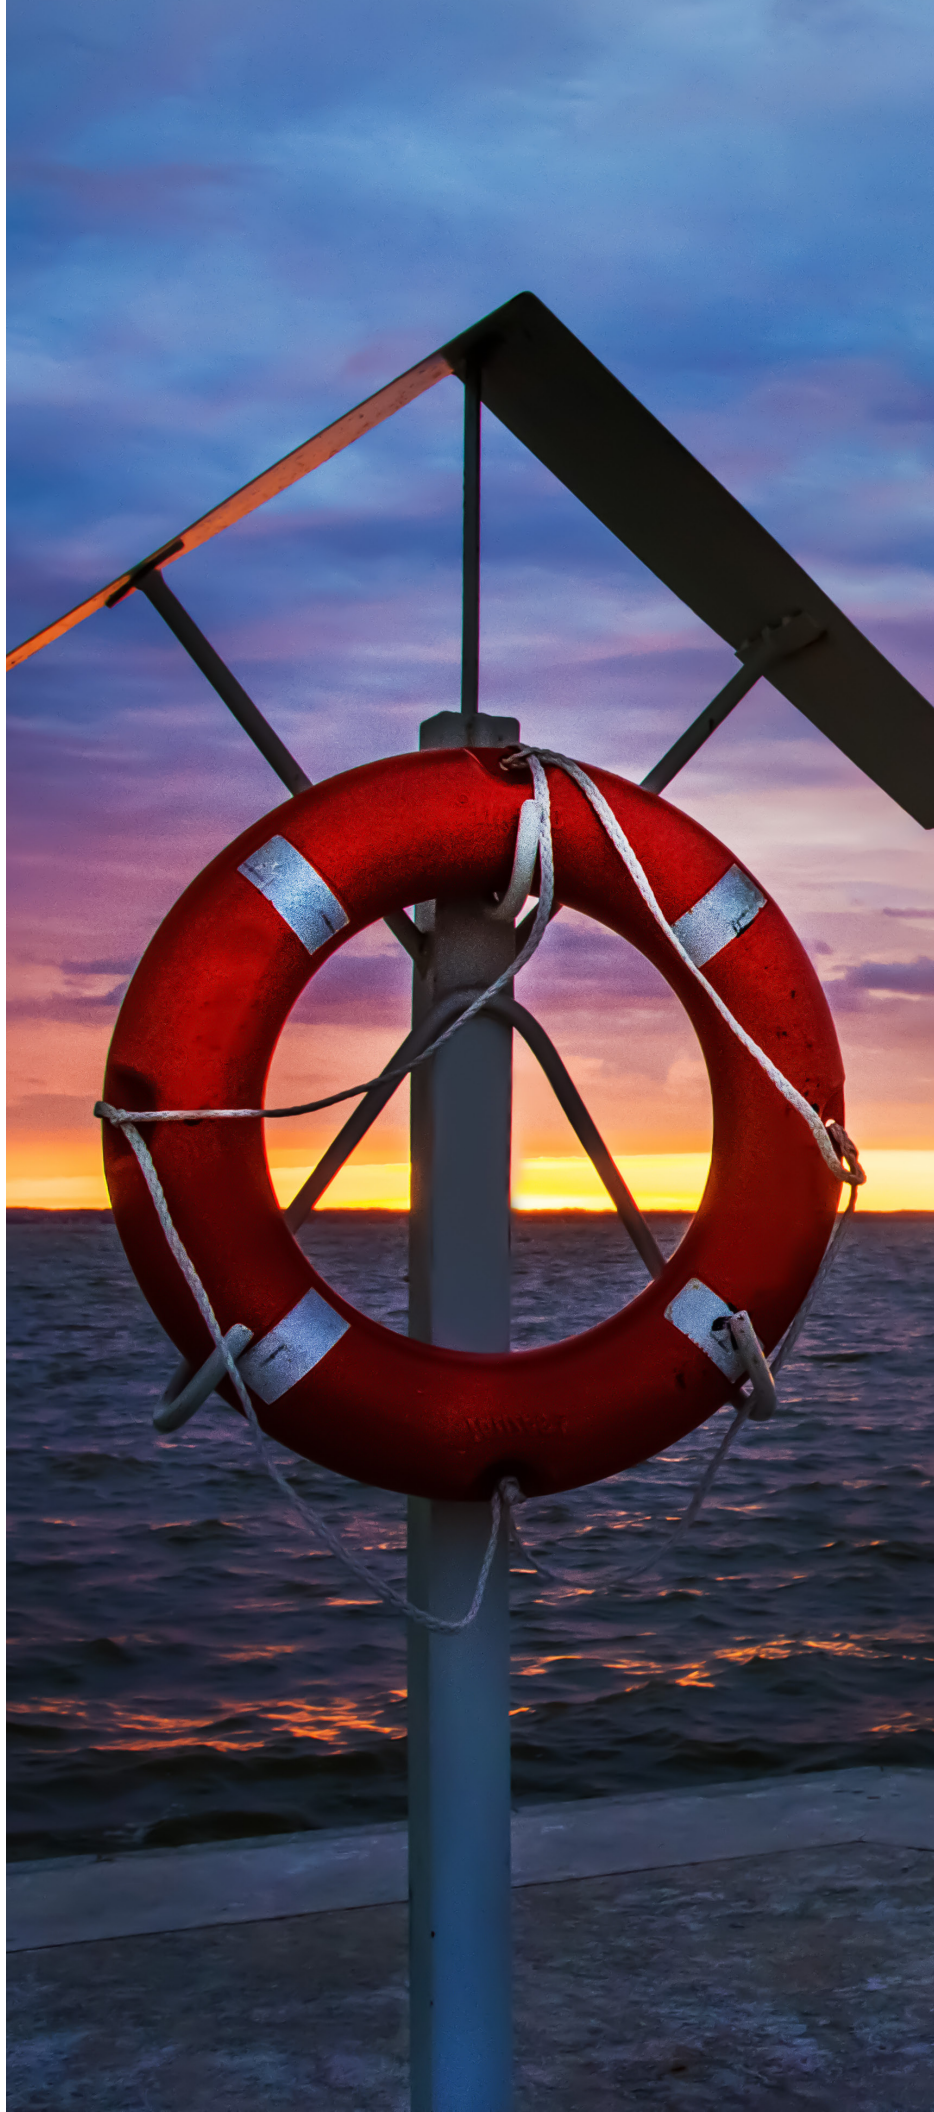

WHY CERTIFICATION ON MEDICAL DEVICES?

Medical Devices is a product group that is required to be under control with advanced regulations around the world. However, compliance with the rules of medical device regulations, which can be fulfilled by providing high standards, can be demonstrated with certificates provided by a conformity assessment body with a high reputation that has reached these standards.

WHY SZUTEST?

SZUTEST, with its services on a global scale, allows many medical device manufacturers to put their products on the market without any problems.

As **SZUTEST**, we know how important it is for our customers to be able to provide the necessary services from a single source so that they can put their products on the market, and we continue to work hard to provide this.

OUR SERVICES

NOTIFIED BODY

SZUTEST, a member of **Team NB**, is a notified body appointed in a wide scope in the European Union Medical Device Regulation. **SZUTEST** is fully authorized to provide the CE Certificate, which is mandatory for medical devices to enter the European and many other country markets.

TEST ACTIVITIES

We are increasing our testing capabilities for medical devices day by day with our ever-increasing investments. Electrical safety tests according to EN 60601-1 standard for active medical devices and biomechanical tests according to ASTM F 382, ASTM F 384, ASTM F 543, ASTM F 1798, ASTM F 2193, ASTM F 1717, ASTM F 2077 standards are carried out by our organization. It is the highest level in the reliability of accreditation test reports. **SZUTEST** has an accreditation certificate within the scope of these tests from internationally recognized and reliable accreditation institutions.

ISO 13485

ISO 13485 Quality Management System Standard is an indispensable reliability indicator for today's medical device manufacturers, services, semi-finished and raw material suppliers and distributors, and the ISO 13485 certificate obtained from an internationally recognized and reliable organization in this field ensures that your company is preferred all over the world. **SZUTEST** has an accreditation certificate from internationally recognized and reliable accreditation bodies within the scope of **ISO 13485** certification.
