## ELECTRICAL APPLIANCES & MACHINERY CERTIFICATION

More than certification...

*SZUTEST has served thousands of companies in Turkey and the World with its expert staff of engineers in the field of conformity assessment and certification of machinery and electrical appliances.*

With harmonization of the EU technical regulations, in our country it is both a requirement for producers to comply primarily with 2006/42/EC Machinery Directive, 2006/95/EC Directive on Electrical Equipment Designed for Use within Certain Voltage Limits and 2004/108/EC Directive on Electromagnetic Compatibility, it is also a way to place their products on the EU and the world markets.

In our testing laboratory accredited in 2016, we are also able to perform all safety tests of electrical equipment of machinery based on Standard EN 60204-1.
